

BRAEMAR'S IDEA SPACE

Braemar's

The **I.D.E.A.** Space

Innovate, Discover, Explore & Achieve

a space to inspire

The vision for a STEAM Hub at Braemar began during a 2018/2019 strategic planning session and was paused during the pandemic, but since Spring 2023, STEAM programming has been actively running for Grades 1 – 8 with strong student engagement and ongoing investment in hands-on materials.

Now re-imagined as the IDEA Space — **Innovate, Discover, Explore and Achieve** — this initiative is being revitalized to inspire creativity, problem-solving, and experiential learning for all students.

Additional benefits of the IDEA Space:

1. Flexibility Across Curriculum Areas

An Idea Space welcomes all disciplines — including social sciences, environmental studies, languages, and more — allowing for broader curricular integration.

2. Future-Proofing the Space

As technology evolves, the term “Idea Space” leaves room for innovation without being confined to specific subject labels

3. Encourages Cross-Disciplinary Exploration

The Idea Space supports holistic, project-based learning that mirrors the complexity of life beyond school.

INNOVATE

Sparking ideas and originality

DISCOVER

Uncovering knowledge and new possibilities

EXPLORE

Diving deeper into concepts and hands-on experiences

ACHIEVE

Bringing those ideas to life and developing oneself along the way

THE BRAEMAR BLUEPRINT

Braemar is excited to announce that this important project is moving ahead. The board has set a goal to break ground on this project and have everything ready in August, 2026 — just in time for our 30th anniversary.

We will be adding an additional modular classroom onto the extension and re-purposing a classroom in the main building to become the IDEA Space.

Funds Needed

\$400,000

(Estimated Modular Cost)

DONATION OPPORTUNITIES

Innovator	Discoverer	Explorer	Achiever
\$25,000+	\$10,000–\$24,999	\$1,000–\$9,999	Under \$1,000
Transforming the future of education by shaping a space where ideas come to life.	Empowering students to explore boldly and solve real-world problems.	Helping lay the foundation for hands-on learning and creative thinking.	Every achievement is a result of teamwork.

Help build the thinkers of tomorrow with a donation to Braemar's IDEA Space through the Braemar Trust.
